PROFESSIONAL SUMMARY

I am a dynamic and results-driven Fullstack Developer from Brazil, with focus on front-end development. I am seeking a challenging role where I can apply my expertise in designing, building, and implementing innovative software solutions. I have a proven track record of delivering high-quality, scalable applications and collaborating effectively with cross-functional teams using agile methodologies. Skilled in modern programming languages, frameworks, and tools, I am dedicated to optimizing system performance, enhancing user experiences, and staying ahead in the ever-evolving tech landscape.

EDUCATION

Bachelor's Degree in Computer Science

Universidade Tiradentes (Unit) - Jan 2021 - Jun 2025

SKILLS

Hard Skills:

-Front-end: Next.js, React, JavaScript, TypeScript, CSS, Tailwind CSS, PWA, UI/UX Design, Git
-Back-end: C#, Python, ASP.NET, SQL, Docker, Redis, Node.js, Git

Soft Skills: Teamwork, Agile Methodologies (Scrum), Effective Communication, Problem-Solving, Critical Thinking, Continuous Learning, Project Management, Code Versioning, Code Review

Languages:
-Portuguese (Native)
-English (Advanced)
-Spanish (Intermediate)

Certifications & Awards: - Google Cloud Skills Boost - NASA Space Apps Challenge - Selected for the global stage (2024) - Local winner (2023)

WORK EXPERIENCE

Front-end Developer

Banese (Jul 2024 - Present)

- Development of high-performance web applications using Next.js.

- Worked in an agile environment, participating in sprint planning, daily meetings, and retrospectives.

- Made architectural decisions to create scalable and sustainable solutions.

- Translated complex financial concepts from Open Finance into intuitive and secure interfaces.

- Collaborated with stakeholders to align development efforts with company priorities.

AI Researcher & Developer

BaneseLABES (Jan 2024 - Jul 2024)

AI Project - Academic Experience (Jan 2024 - Jul 2024)

- In-depth study of neural networks and language models.

 - Practical application of generative AI in an innovative project.

- Developed dynamic interfaces using React for AI integration.

- Strengthened hands-on experience in emerging technologies.

Fullstack Developer

Sergipe State Department of Public Security (Jan 2023 - Dec 2024)

- Developed and maintained systems using .NET, C#, Angular, JavaScript, HTML, and CSS.

- Created integrated systems to optimize critical public management processes.

- Implemented new features, fixed bugs, and optimized performance.

- Worked collaboratively with multidisciplinary teams, ensuring high-quality deliveries.

DIFFERENTIATORS
- Strong experience in front-end and back-end development.

- Ability to translate technical concepts into intuitive solutions.

- Proven track record of participation and recognition in global technology challenges.

- Ability to work in agile and collaborative environments.

- Commitment to continuous learning and technological innovation.
